Microsoft Dynamics CRM is a customer relationship management software package developed by Microsoft. The product focuses mainly on Sales, Marketing, and Service (help desk) sectors, but Microsoft has been marketing Dynamics CRM as a CRM platform and has been encouraging partners to use its proprietary (.NET based) framework to customize it. It is part of the Microsoft Dynamics family of ...

Customer-relationship management (CRM) is an approach to manage a company's interaction with current and potential customers. It uses data analysis about customers' history with a company to improve business relationships with customers, specifically focusing on customer retention and ultimately driving sales growth. One important aspect of the CRM approach is the systems of CRM that compile ...
