Project governance is the management framework within which project decisions are made. Project governance is a critical element of any project since the accountabilities and responsibilities associated with an organization's business as usual activities are laid down in their organizational governance arrangements, seldom does an equivalent framework exist to govern the development of its ...

Project governance - Wikipedia

Project management is the practice of initiating, planning, executing, controlling, and closing the work of a team to achieve specific goals and meet specific success criteria at the specified time. A project is a temporary endeavor designed to produce a unique product, service or result with a defined beginning and end (usually time-constrained, and often constrained by funding or staffing ...
